What sets us apart?

- ✓ **Proven reduction of health risks** and expensive sick care
- ✓ **Results are measured** through objective, year-over-year biometric assessments, not vanity metrics like step counts
- ✓ **Custom programs** are created to fit a company's culture
- ✓ **Onsite, personalized coaching** encourages employees to achieve their health goals
- ✓ Management of **the program is our responsibility**, not yours or your client's
- ✓ **CHP programs are independent of insurance carriers** and will not lock a company into any particular plan
